- Sanga-Sanga, Bongao, Tawi-Tawi, Philippines

Profile

A software developer addicted to the stench of code with hints of bugs & errors, and the aroma of a freshly brewed cold Spanish Latte. May also casually dip into graphic designing for extra spice of chaos and mental instability. Standing frail yet firm, hailing from the southernmost province of the Philippines.

Skills and Traits

- C#
- Python
- Kotlin
- JavaScript
- Vector Art
- Photo Manipulation
- Graphic Design
- Responsible
- Innovative
- Dedicated

Work Experience

Computer Programmer
03/2023 - 10/2024
Tawi-Tawi Regional Agricultural College
Bongao, Tawi-Tawi, Philippines

- Lead developer for the creation of the modular, cross-platform, software system of the college that included various processes such as student admission, enrollment, scheduling, and grade submission.
- Facilitated and delivered short courses and technical workshops on basic ICT operations and programming to college staff and students alike.
- Sat as one of the panelist for the Capstone Project defenses in the college for Information Technology, Information Systems, and Computer Science departments.
- Acted as technical advisor for the successful implementation of ICT in the college.

Information Systems Analyst
04/2020 - 01/2023
Integrated Provincial Health Office Tawi-Tawi
Bongao, Tawi-Tawi, Philippines

- Appointed ICT Head Officer overseeing IT-related tasks of the health sector around the province.
- Created and managed a website that was used as the vaccination record management system of the province.
- Designed the vaccination card for the province of Tawi-Tawi and its integration to the local database.
- Created various application systems to improve the ICT and workflow in the office.
- Spearheaded the installation of a satellite-based internet service for hospital use and the creation of an office-wide network.
- Designed pamphlets, tarpaulins, and social media graphics for health information dissemination.
